VOLUME 10; NUMBER 12

CARBON, ALBERTA, THURSDAY, APRIL 21, 1932

\$2.00 A YEAR IN ADVANCE

## THE WORLD OVER

The Disarmament Conference comes swiftly to discussion of concrete proposals. Chairman Hugh Gibson of the American delegation urges abolishing of heavy mobile guns, tanks and all poison gases, and is backed by Britain, Italy, Germany, and many smaller nations. Premier Tardieu replies that any weapons may become aggressive and clings to the French proposal of a League police army which shall maintain order by international brute force. The international police idea has few friends. Tardieu said aggressive arms could not be distinguished from defensive, yet the Versailles Treaty has done this for Germany. Tardieu said lack of good faith would prevent nations from destroying their weapons if outlawed; yet, Grandi points out, good faith is what bases all treaties and agreements. Grandi refuses to tolerate Tardieu's picture of a world in which big guns must remain pointed at all heads because of a hideous basic defect—no honor among men.—Christian Science Monitor.

## Southern News

Fred. G. Ohlhauser went to work for W. Marshman on Tuesday of last week.

Born, to Mr. and Mrs. J. Perman on Friday, April 15th, a daughter.

Mr. J. J. Forsch, C. J. Bertsch Sr. and Adam Bertsch made a trip to Drumheller on Friday evening.

Mr. and Mrs. Alex Herter and family left on Wednesday of last week for Stony Plain, where they will reside in future.

Adam Bertsch has disposed of his 10-20 McCormick Deering tractor to G. E. Schell.

J. Wallace and family left on Monday for Westlock, Alberta, where Mr. Wallace has purchased a half section of land.

Born, to Mr. and Mrs. Gus Bitz, last

## SEEDING OPERATIONS DELAYED BY RAIN

Seeding in the Carbon district the past week has been general and the land is reported to be in wonderful condition with considerable reserve moisture in most parts of this area. Some farmers have not commenced seeding, while others report seeding operations completed. Reports from the southern part of the district give seeding of wheat about 70 per cent completed. The rain this week has delayed seeding operations for a couple of days, although the moisture is always welcome for it will make the reserve moisture that much greater. Everything points to a good crop this year.

## SUCCESSFUL CONCERT BY G. F. A. ASS'N

A very successful concert and dance was put on at the Webb school on March 30th by the members of the G. F. A. A., to raise funds for the club. Proceeds taken in were \$15, of which \$7 was cleared. Owing to the condition of the roads on this occasion it was decided to take the concert to Carbon, and on April 9th a very successful concert was held in the Elks hall, Carbon. \$15 were cleared on this occasion. The president of the Association, R. Garrett wishes at this time to convey the appreciation of the members of the Association to the public for supporting and otherwise helping to make the concert a success. The Grand Forks Athletic Association is looking forward to a big year and invite everyone to participate in their athletic events. They have a good line of equipment.

Wheat seeding in this district is reported to be about 70 per cent completed. There is plenty of reserve moisture.

## ALBERTA NEWS

Taxes on several premises in the town of Three Hills are considerably in arrears and the secretary is having the tenants pay the rent to the town to apply on taxes.

To consider the production of radium from pitch-blende ore in the Great Bear Lake region as a mining industry employing any large number of men was an "absurdity." This declaration was made recently in the Dominion Senate by General A.D. McRae.

The town of Rockyford has been fortunate in procuring the grounds formerly occupied by the Crown Lumber Yard, for a Tennis grounds. There will be two courts put in shape shortly and a good season is anticipated.

Clareholm golf club has reduced its fees for this season to the following: Gentlemen \$3; Ladies \$3; students and juniors \$2. Man and wife, \$5.

The estimated wealth of Manitoba is now \$1,970,000,000; Saskatchewan \$3,047,000,000, and Alberta, \$2,405,000,000. Alberta's per capita wealth is the second highest in Canada.

Despite the fact that the government has withdrawn all grants and assistance from the small fairs throughout the province, the Didsbury Agricultural Society has decided to carry on. They will hold a fair this year.

The season at Kiever's Lake will reopen on May 20th, for the summer months.

Seeding has commenced in certain sections of the Hanna district and reports indicate that the soil is, in most places, in good condition for the reception of the seed. Reserve moisture, however, is nil.—Hanna Herald.

In an effort to protect the highways of the province from damage from unduly heavy loads during the period in which the ground is coming out of the ground and the roads generally are in a softened condition, restrictions have been placed on the weight of loads permitted to be carried by trucks during the period from April 11th to 24th.

At a meeting of the Gleichen Athletic Club held recently, the discussion centered on the erection of a covered rink and such a building is almost assured before the next winter sets in.

A father and his little boy were having a discussion on legal matters. "What is a retaining fee?" asked the little boy. His father replied: "A retaining fee is a fee paid to a lawyer before he will undertake to do any work for a client." "Oh," replied the boy "like putting two bits in a meter before you get any gas."

## SPECIAL MEETING OF PRESBYTERY

A special meeting of the Presbytery of Three Hills (United Church of Canada) is called to meet at Acme on Tuesday, April 26th, at 2 o'clock in the afternoon. This meeting will deal with the resignation of Rev. John MacLennan of Acme, and to consider certain proposed or suggested changes in the boundaries of the Acme, Carbon, Belseker, Swallow and Irricana congregations. All interested parties ought to attend this meeting.

## BIRTHS

Born, to Mr. and Mrs. Leo Halstead on Thursday, April 14th, a son.

Born, to Mr. and Mrs. S. Battum, of Three Hills, on Thursday, April 14, a daughter.

HAVE YOU PAID YOUR SUBSCRIPTION YET? NOW IS THE TIME

## DELACROIX—VILIN

A quiet marriage ceremony was solemnized at the Manse, Carbon, on Thursday, April 14th, by Rev. Wm. McNichol, M. A., when Mrs. Melaine Vilin, of Newcastle, became the bride of Mr. John B. Delacroix, also of Newcastle.

## W. L. TOLTON, ACME, SERIOUSLY HURT

W. L. Tolton met with a most unfortunate accident last Tuesday afternoon. He was helping to load a wooden water trough in a wagon on the place next to the Acme Livery Barn. The trough, which he was holding was up ended and in some way became unbalanced and fell, pinning Mr. Tolton to the ground and squeezing him severely on the chest and back. With the aid of friends he was freed and immediately rushed to his home where Dr. Fowler helped to relieve his sufferings. Latest reports are that Mr. Tolton is resting easily.—Acme Sentinel.

## SPECIFIC REQUIREMENTS FOR GROWING CHICKS

Recent researches carried on in the poultry department of the University of Alberta indicate that the growing chick's requirements for calcium and phosphorus are very specific. Certain types of leg weakness, including such deformities as "slipped tendons" are caused, not by high protein level, but by an excess of calcium and phosphorus, or a disproportion between the two elements in the ration. With animal proteins constituting from 20 to 25 per cent of the mass, it has been shown that supplements such as oyster shell, grit, limestone or bonemeal, are not only unnecessary, but tend to upset the mineral balance. Furthermore, the chick of today, which lives on a highly concentrated and finely ground mash mixture, needs no grindstones in its gizzard, and in fact makes more rapid growth without such bulky and indigestible material, at least for the first few weeks of its life.

A new mimeograph of the care and feeding of chicks has just been prepared for distribution and will be sent free on request to anyone desiring it, from the poultry department of the University of Alberta.

## GOLF FEES SAME AS LAST YEARS

The annual meeting of the Carbon Golf Club was held in the Municipal office, Carbon, on Thursday evening, April 14th, with President F.J. Bessant in the chair. The secretary read the minutes of the previous meeting, and the financial statement was reviewed showing a small balance in the bank. The following officers were elected for the year:

President, Len Poxon  
Vice-President, S. F. Torrance  
Secretary-treasurer, E.J. Rouleau  
Executive Committee: Messrs. J. J. Greenan, H. Brown, and A.F. McKibbin  
Captain, F. J. Bessant.  
Membership Committee: Messrs. J. J. Greenan, A. F. McKibbin and Hugh Brown.

The matter of fees was discussed and it was decided to keep fees as low as possible and a special fee be set for out of town members. The fees were then set at: Men \$3; Ladies \$2; school children \$1; Out-of-town players \$2.50. This out-of-town fee was set in view of the fact that a number of Rockyford players want to join the club this year and some inducement was given to them in this way.

The course is to be fixed up immediately and the greens sanded and oiled. A fairly good season is expected in golf this year and many ladies have signified their intention of joining the club this year. At the present time many are taking advantage of the splendid shape of the fairways and with the lengthening out of the days now it will not be long before golf will be popular in the evenings.

## CRIMINAL OFFENCE TO ISSUE "N.S.F." CHEQUES

A third reading was given in the House of Commons recently to a measure amending the criminal code. One amendment changes the "false pretence clause" and provides that where a cheque given for goods, is returned by the bank dishonored, the presumption will be that the issuer was guilty of false pretence, unless he can show he has reason to believe there were sufficient funds in the bank.

To those who make a practice of issuing cheques when short of funds this should be a warning and a tendency to decrease the number of N.S.F. cheques on the market.

### Reducing Costs Of Government

Continuing discussion of the above subject, let us consider in a little more detail some of the many duplications in services on the part of the Federal and Provincial Governments.

First, agriculture. Both Governments maintain experimental farms or experiment, illustration or demonstration stations, forestry farms, etc. This work should be confined exclusively either to the Dominion or to the Provinces, and, as conditions vary so greatly as between the provinces, this class of work might well be left to them. The Dominion Department of Agriculture might well confine its efforts to establishing and maintaining standards of weight and quality of all agricultural and allied products, safeguarding the health of animals, preventing the introduction of diseased animals, impure seed, and infected tree and plant life from abroad. Responsible for the fixing and maintaining of standards of quality, the Dominion would likewise be responsible for promoting the sale of these high standard products in the markets of the world. Let the provinces look after the educational and production end, and the Dominion the maintenance of uniform Canadian standards and the development of our export markets for these uniformly high quality products irrespective of province in which they are produced.

Public health. Here, too, the Dominion might well confine its work to safeguarding the health of all through the prevention of disease resulting from disease-afflicted people entering the country, while leaving to the provinces the general work of health education among its people, health inspection and disease prevention. And just as the prairie provinces now pay the Dominion for police services, so the Dominion might pay the provinces for carrying on the necessary health work among the Indian wards of the nation. The Federal Department of Health could thus be done away with, and the work performed through the Immigration Department on the one hand and the Provincial Departments of Public Health on the other hand.

Then there is that most prolific source of friction between Federal and Provincial Governments, namely, company incorporation, company law, inspection, taxation, etc. Hardly a year passes that there is not some reference before the courts to settle the respective jurisdiction of Federal and provincial authorities in regard to these subjects. There is also the heart-burning issue where provincial governments through local government boards, utility commissions, or some similar body, seek to protect their people from irresponsible, not to say dishonest, company promoters and high pressure stock salesmen, but whose best efforts are brought to naught because such companies by obtaining Dominion rather than provincial incorporation can defy the provinces.

It would seem as if all company incorporation should be Dominion, rather than partly Dominion and partly provincial. Then any company could do business in any or all the provinces. If some company desired to engage in a purely local business, its incorporation fee might be made smaller, and its charter so restricted, if desirable, but if all company incorporation was vested in the Dominion, all incorporation fees could be reduced and at the same time Dominion revenues would be increased. Certainly, a vast amount of friction and litigation, not to speak of much duplication in taxation, would be ended, and all Canadian business except the lawyers, would benefit thereby.

Changes such as suggested would mean loss of revenue to the provinces, and increased revenues to the Dominion. It therefore follows that there should be a readjustment of taxing powers. Under the B.N.A. Act the provinces are limited in their taxing power to the imposition of direct taxes, while the Dominion can impose both direct and indirect taxes. The field of indirect taxation is much wider than the field of direct taxation. The Dominion, therefore, might well withdraw from the latter field and leave it to the provinces. By and large this would mean the dropping by the Dominion of the income tax, and leaving that source of revenue exclusively to the provinces.

This is surely worthy of consideration. In the meantime, however, with both Federal and Provincial Governments levying taxes upon income, and with both governments maintaining income tax departments for the levying and collection of such taxes, is it not possible to eliminate the waste of taxpayers' money resulting from such duplication of departments by some arrangement whereby either the Dominion would collect for the provinces, or the provinces when collecting their taxes would likewise make collection for the Dominion? Whichever body was saved the expense might pay to the other a percentage fee on the money collected for it. Not only would the money now wasted in duplication of collecting agencies be saved, but the public would be relieved of much annoyance and the necessity of filing duplicate sets of returns and calculations.

Furthermore, surely it is high time a stop was put to such practices as the one introduced in the recent budget at Ottawa whereby the Dominion imposes a tax on businesses conducted by provincial governments. The recent budget imposes a tax of five cents on every long distance telephone call. This really means an increase of that amount in long distance telephone tolls, which business in these prairie provinces is the exclusively business of the provincial governments. If that additional sum is to be extracted from the patrons of the long distance lines, then it should accrue to the provincial governments, and not to the Dominion. But the Dominion steps in and imposes this tax on provincially-owned public utilities, and even throws additional expense upon the provinces to collect the tax, and do the additional bookkeeping and accounting work which it will entail. This is most illogical and unfair. It would be just as reasonable for the provinces, if they had the power, to impose a tax upon the business transacted by the post office department.

So, in conclusion, we would again emphasize the view expressed in a previous article in this column, namely, that it is expedient that a conference of all the provinces with the Dominion be held with a view to amending the B.N.A. Act, removing therefrom the many causes of dispute between the Federal authority on the one hand and the provinces on the other, more definitely defining the spheres of control of each, and clarifying their respective fields of taxation. The taking of such action would be a long step forward towards reducing costs of government in this country.

### Sorry To See Night Coming She Could Not Sleep

Mrs. K. McElroy, Kirkfield, Ont., writes:—"I was very nervous and run down, was short of breath, and had smothering feelings, and was sorry to see night coming as I could not lie down or go to sleep."

I was advised to use Milburn's Heart and Nerve Pills. I took seven boxes and am now completely relieved; can sleep fine all night, and have gained in weight."

### Making Better Use Of Sunlight On Farms

New British Glass Substitute For Window Lighting Is Boon To Farmers

During the past fifteen years there has been much scientific studying of sun rays and their effect on human beings and animals. Ultra-violet rays particularly have been studied. Even the scientists themselves are unaware exactly how ultra-violet rays affect growth, health, and development in both vegetables and animals. They are, however, known to be largely responsible for all three. After exhaustive researches, means have been found not only to produce them artificially, but to facilitate their entry in a natural state into ordinary buildings by using specially prepared material of low cost for window lights.

It is probable that this is one of the greatest boons conferred on farmers, poultrymen, market gardeners, and smallholders by scientists for some time. The specially prepared material referred to surpasses ordinary window glass in that it will permit the passage of ultra-violet rays. Glass will not do so. Thus, since it is flexible and almost indestructible, it offers immense possibilities for the lighting of livestock sheds, chick and laying pens for poultry, hot and cold frames in the vegetable and flower garden and special covers for raising young plants in the open much ahead of the usual time.

The advantages of using a material which will transmit ultra-violet rays are not theoretical; they have been proved to be profitable in actual tests. Take poultry for example.

Tests carried out both in this country and England have shown that chicks can be raised earlier in the year in brooders which are lighted with the new material and that in winter months adult birds housed behind it lay more eggs.

Another test made in England with a flexible glass substitute called "WINDOLITE" which has now been made available in Canada, showed that a flock of 30 hens behind ordinary window glass averaged 39.20 eggs per hen for the six months from May to December. Another flock behind the glass substitute averaged 78.27 eggs per hen for the six months. Those figures are, in themselves, conclusive.

As far as chicks are concerned, there is decidedly less leg weakness and the usual chicken mortality in brooders is very largely removed.

Livestock buildings and barns lighted with this material should be healthier for animals. One eminent British medical authority states his belief that tuberculosis in cattle is largely due to their being deprived of ultra-violet rays in dark sheds in winter.

In the garden, berry crops, lettuce and all other small plants can be brought to maturity a fortnight earlier, and have been found to be bigger and of better flavor if grown under covers made of this material.

Another factor in favor of using the new glass substitutes is the extreme cheapness, strength and handleability. The new British glass substitute for window lighting actually costs less per square foot than ordinary window glass; is unbreakable, except by extreme violence; retains its translucency and ability to pass ultra-violet rays indefinitely and is unaffected by severe climates—yet its weight is less than one fourteenth that of ordinary glass.

Persian Balm—there is nothing like it for creating and preserving a lovely complexion. Cooling, caressing—it soothes and dispels all roughness or chafe caused by weather conditions. Dainty, fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose-leaf in texture. Recommended also to soften and whiten the hands. Truly a peerless toilet requisite for every woman.

### Manitoba-Ontario Highway

The trans-Canada Highway east from Whitemouth, Man., to the Ontario boundary has been completed and formal opening of the 45 mile stretch to Kenora will take place with appropriate ceremonies on Dominion Day, July 1, under the auspices of the Manitoba and Ontario governments.

Douglas' Egyptian Liniment is without a rival. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning.

W. N. U. 1933

### Cuban Earthquake Recorded At Ottawa

Delicate Seismographs At Ottawa Observatory Register Disturbance

The earthquake at Santiago, Cuba, on February 3, 1932, was well recorded by the seismographs at the Dominion Observatory, Department of the Interior, Ottawa. By means of the seismographs the distance to the epicenter was found to be 2,760 kilometers or 1,700 miles, and the time at the origin 1-15-57 a.m., Eastern Standard Time. The maximum ground displacement at Ottawa was about one-hundredth of an inch. According to press reports the damage in the city of Santiago was estimated at \$10,000,000. Nine persons were killed and the casualty list was about 300.

### Tells Dyspeptics What To Eat

#### Strict Diets Often Unnecessary

It is a well known fact that some foods have a strong tendency to produce excessive stomach acidity and consequent indigestion. By omitting from daily meals those foods that experience proves do not agree and limiting the diet to certain tasteless unappetizing foods, stomach troubles may in many instances be slowly overcome. Nine times in ten, however, indigestion, gas, etc., are due to excessive acidity and the premature souring of food in the stomach. Keep the stomach clean and sweet by freeing it of this extra acid and then sufferers can eat the foods they like best and as much as they want in reason and have no stomach trouble at all. Thousands of people do this daily by merely taking after every meal a little Bismarck Magnesia, which can be had at any good drug store in either powder or tablet form. Bismarck Magnesia instantly neutralizes stomach acids, stops food fermentation and meals digest as naturally and painlessly as in the stomach of a healthy child. Stomach comfort means a lot and most folks like good things to eat. Enjoy them both by making Bismarck Magnesia your daily after-eating protection.

### Riding Mountain Park Golf Course

Riding Mountain National Park, Manitoba, now has a nine-hole golf course, which has been brought up to good playing condition. It was very popular during the past summer with both residents and transients in the park. An additional nine holes will be added in the near future.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

A hick town is any town, and the bigger the town the bigger the hicks contained in it.

Savings bank depositors in Austria are reported to be withdrawing their money to hoard it.

### C. N. R. Efficiency

Impressive Economy Record Established For Year 1931

Figures upon the operation of the Canadian National Railways for the year 1931 indicate that an impressive economy record was established in the face of heavily declining revenue. The operating revenue for the year reached \$177,273,700, as compared with \$221,770,445 for the preceding year, a decrease of about 20 per cent. Net operating expenses were \$169,688,000 as against \$195,259,507 for 1930, a decrease of 13 per cent. The system, therefore, exclusive of the lines operating under the Maritime Freight Rates Act, will show an operating surplus of about \$7,585,700 for 1931. This, of course, is a very slight help toward paying the enormous burden of interest on capital investment, but it is at least an operating profit.

The really encouraging thing about the report from Montreal, however, is that while freight traffic revenue dropped about 16 per cent., operations were so arranged that the gross tonnage carried on each freight train operated was maintained and slightly increased. Speed of operation was increased and fuel consumption decreased. Passenger train service mileage operated was 25 per cent. less in December, 1931, than in December, 1930, and 29 per cent. less than in December, 1928, but locomotives were kept up to the usual average, and "on time" performance for the year set a new high record.

These figures indicate that the efficiency of the system is being improved in the time of adversity, and with an increase in freight and passenger traffic, such as may be expected with a gradual return to normal conditions, the relation of operating net revenue to overhead cost should be greatly improved.—D. P. C. in The Border Cities Star.

Uruguay expects bumper crops this season.

# "I'm going, anyway"

THE modern Miss needs no "time out" for the time of month.

If you've ever taken Aspirin for a headache, you know how soon the pain subsides. It is just as effective in the relief of those pains peculiar to women!

Don't dedicate certain days of every month to suffering. It's old-fashioned. It's unnecessary. Aspirin will always enable you to carry-on in comfort. Take enough to assure your complete comfort. If it is genuine Aspirin it cannot possibly hurt you. Aspirin tablets do not depress the heart. They do not upset the stomach. They do nothing but stop the pain.

Headaches come at inconvenient times. So do colds. But a little Aspirin will always save the day. A throat sore that you can hardly swallow is made comfortable with one good gargle made from these tablets. Neuralgia. Neuritis. Rheumatism. Pains that once kept

people home are forgotten half an hour after taking a few of these remarkable tablets. So are the little nagging aches that bring fatigue and "nerves" by day, or a sleepless night.

Genuine Aspirin tablets cost so very little after all, that it doesn't pay to experiment with imitations!

(Made in Canada)

# Says Garnet Wheat Should Be Graded Separately In Order To Command A Better Price

If Garnet wheat were graded separately, thus allowing millers to make their own blends, it would have a better chance of commanding a premium in the market than it has at present. This variety is at the moment graded as No. 2 Northern.

Such was the opinion of E. B. Ramsay, chief of the board of grain commissioners, expressed to the House of Commons Committee on Agriculture.

Last October the western grain standards board passed a resolution recommending that separate grades be erected for Garnet. Parliament, however, requested that this action be deferred for the present year, so that the grades will not be disturbed for another 12 months at least.

The chief antagonism against Garnet came from the Canadian millers, Mr. Ramsay told the committee. Their prejudice was due to the yellowish tinge of the flour and not to any inferiority in qualities. Foreign millers had found it satisfactory. Also, Canadian millers did not wish to buy a No. 2 Northern, in which grade Garnet had been put. Asked by W. R. Motherwell (Liberal, Melville), if the real reason for this antagonism might not be that the Canadian millers did not want to incur the expense that might be entailed in adjusting their machinery to grind Garnet, Mr. Ramsay believed this to be a factor.

Of 276,000,000 bushels of wheat produced last year Garnet totalled 45,000,000, thus indicating the popularity of this variety in the west.

Mr. Ramsay urged that blending Garnet with other varieties should be scientific and not haphazard. The high quality of Canadian wheat must be maintained, for the Canadian inspection certificate was the only one accepted in England at its face value.

He thought that if foreign importers wanted Garnet, they should know they were getting that variety. At present, they did not know what they were getting inasmuch as shipments were made only on the basis of No. 2 Northern. These might contain 10 per cent. Garnet, or 80 per cent.

## New Gold Mines

### Rich Areas Are Reported In Northern Manitoba

New gold mines will be discovered and developed in Manitoba, predicted J. F. Wright, of the Geological Survey, in a paper delivered before the annual convention of the Canadian Institute of Mining and Metallurgy in session in Montreal.

Dr. Wright, who has devoted a great deal of his time in recent years to examination of mineral areas in Manitoba, referred particularly to the areas about Island Gods and Oxford Lakes as new ground offering interesting possibilities to the prospector. These areas, formerly inaccessible, can now be reached by airplane, he stated, and have already yielded some promising prospects which he described in some detail.

Practical suggestions and instruction to the prospector were contained in Dr. Wright's paper calculated to direct his efforts into the most productive channels.

Present evidence, concluded Dr. Wright, points towards interesting possibilities in the neighborhood of the three lakes mentioned. They are located about 150 miles east of the northern end of Lake Winnipeg.

"Can you lend me five marks quickly?"  
"No, nor slowly either."—Jugend, Munich.

W. N. U. 1938

## The Wheat Bonus

Over \$11,000,000 Distributed At a Cost Of \$107,000

The cost of administering the wheat bonus of five cents a bushel last year was \$107,000, H. H. Stevens, Minister of Trade and Commerce, told the House of Commons. In committee of supply the House was considering an estimate of \$2,400,000 for the Canada Grain Act. The appropriation represented a reduction of \$331,000 from the sum voted last year.

More than 3,000,000 cheques had to be mailed out to the farmers receiving the bounty, he said. The bonus itself was more than \$11,000,000 last year.

The bonus was administered by the Board of Grain Commissioners, and the \$107,000, taken up with administration costs, represented one per cent of the moneys applied.

WHEN ONE'S BUDGET IS LIMITED! IT PLAYS A DOUBLE ROLE!

You can wear this fascinatingly lovely dress for Sunday nights or afternoons.

It has its own little jacket! See the miniature figure!

The jacket has a peplum hip frill and exceedingly attractive sleeves. It's youthfully smart in black crepe silk. The deep bodice yoke that terminates in the fashionable caplet back, is of lace.

And isn't the skirt tricky with its crossed diagonal through the hips?

Style No. 718 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 16 requires 2½ yards of 39-inch material with ¾ yard of 35-inch all-over lace. The separate jacket takes 2½ yards of 39-inch material.

Printed crepe silk with the bodice of plain toning crepe is chic.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

## Finances Of Canada

Government Ended Year With Cash Balance Of \$53,000,000

Ordinary expenditures in 1931-32 were \$19,000,000 less than estimated, totalling \$378,700,000.

Ordinary revenues, greatly reduced by reason of lower yield from taxation, were \$327,700,000.

Deficit on ordinary account, 1931-32, \$51,000,000.

Expenditures not provided from income—Special (net), including unemployment and farm relief, \$48,000,000; capital, \$16,900,000; loans (non-active), \$8,300,000—resulting increase of debt, \$119,500,000.

Expenditures on unemployment and farm relief, 1931-32, \$38,250,000; wheat bonus, \$11,000,000.

Government ended year with cash balance of \$53,000,000.

Estimated expenditure, ordinary and capital, in 1932-33, \$379,500,000, a reduction from the previous year of \$25,400,000 after absorbing an increase of \$12,700,000 in interest on public debt.

Controllable expenditures of the government on the usual services have under the estimates for 1932-33, been reduced \$35,800,000, or 20 per cent. from the previous year.

Revenues under existing taxation are estimated at \$319,000,000, and ordinary expenditures, \$36,900,000.

New taxation will, it is estimated, yield \$55,000,000, balancing current account and leaving a surplus of \$4,300,000.

Provision is not fully made from revenues for capital expenditures or for unemployment relief or railway deficit, although any improvement in business would be immediately reflected in increased yield from taxation and would correspondingly improve budget position on all counts.

## May Retire From Public Life

Stated That Lloyd George Will Devote His Time To Writing and Farming

David Lloyd George, one of Britain's greatest political figures, was reported recently to have decided on his virtual retirement from the House of Commons. Only events of outstanding importance, said those close to him, would bring the Welsh Liberal and war time prime minister back to the scene of his past triumphs. There was nothing on the political horizon now, it was added, that could be considered in that category.

Lloyd George, who, in his galvanic person during the war symbolized for many the British "will to win," whose oratory swayed the benches of Commons as had that of few men, will devote himself in the future to writing and farming, his friends said.

While continuing to feel that where Lloyd George is concerned the unexpected might always happen, commentators recently have pointed out that in the strict logic of events it was hard to see just what his place could be in the present political scheme.

## Will Exhibit "Flying Scot"

Those who do not expect to travel between London and Edinburgh next May may see in Chicago the "Flying Scot," fastest train in the world. The "Flying Scot" will be transported to the United States in 1933 with its full crew of British trainmen, complete with coaches, sleepers and dining cars and motive power, to be shown at Chicago's Century of Progress Exposition.

# No Other Boundary In World Of Such Length As That Which Divides Canada and United States

## Iodized Salt

Research Council Advocates Iodine Survey Of Food and Water Supplies

In the opinion of the Associate Committee on Iodized Salt, an advisory body of Canadian experts created by the National Research Council at the suggestion of the Canadian Medical Association and the Canadian Chemical Association, the widespread sale of endocrine preparations containing thyroid is inadvisable from the standpoint of public health, except under a doctor's prescription, and the sale of these preparations for the treatment of goitre and obesity cases should not be permitted.

The method of administering iodine in table salt is satisfactory but the proportion of iodine now used in iodized salt in Canada, one part in 10,000, is unnecessarily high. One part of sodium or potassium iodide in 200,000 would be sufficient and one part in 100,000 would be satisfactory as a maximum.

The committee suggests that if an iodine survey of food and water supplies in Canada is to be carried out, it should be undertaken by a national body such as the National Research Council. Consultation with the manufacturers of iodized salt by the National Research Council and the organization of research in association with the manufacturers was recommended.

A survey indicated that the sale in Canada of iodized salt is increasing, especially in the areas where goitre is prevalent. In these districts more iodized salt than free running salt is sold. According to the available statistics (not regarded by the Committee as complete), goitre is practically absent in Nova Scotia and New Brunswick and quite uncommon in Quebec. In Ontario its prevalence is quite noticeable at Kingston, increases about the Muskoka district and in the vicinity of Windsor, still increases from North Bay to Cochrane and from Sudbury to Sault Ste. Marie, then diminishes again at Port Arthur and Fort William. It has also been found to be prevalent in Saskatchewan in the vicinity of Prince Albert, while in Alberta and British Columbia it diminishes again, particularly at the coast. The Committee has expressed its interest in the iodine survey of Alberta carried on by Dr. O. J. Walker, of the University of Alberta.

## The Thing To Value

Contribution Men Make For Betterment Of the World

This is an age and era when people are prone to collect money, and they are valued as they amass wealth. But we can see a change coming over the world. People are beginning to realize that it is not the wealth a man accumulates that is the thing to value, but the contribution made for the betterment of the world. People are beginning to realize that work of any kind for the public service and advancement, making the community better, is the real achievement.—General Smuts.

Many references at gatherings in Canada and the United States are made to the "4,000 miles of undefended boundary" between the two countries. As a matter of fact the boundary is 5,500 miles in length, of which 3,100 miles are land boundary and 2,400 miles are water boundary. The land boundary is marked by 5,483 monuments and a vista cut through the woods in all forest covered areas; the water boundary is identified by 2,530 reference marks.

The monuments used in the several sections of the boundary are of several types and of different materials. In the mountains of Alaska and British Columbia hollow monuments of aluminum bronze are used; on the more accessible parts of the land boundary, the monuments are of cast iron, granite and concrete. Along the larger waterways the reference monuments are chiefly of concrete, and along the narrower waterways small solid aluminum bronze marks serve to mark the international boundary. Where necessary, monuments of a special type are used, for example, the Gulf of Georgia, the first course of the water boundary, which is eleven miles in length, is ranged by steel towers carrying lights. The offshore tower in this case is sixty feet high.

Partly due to physical characteristics, partly for historical reasons, and partly for convenience, the international boundary has been divided into eight sections. These sections are:

- (1) The Atlantic Ocean to the source of the St. Croix River;
- (2) the source of the St. Croix River to the St. Lawrence River;
- (3) the St. Lawrence River and Great Lakes;
- (4) Lake Superior to Lake of the Woods;
- (5) the 49th parallel from Lake of the Woods to the Gulf of Georgia;
- (6) the Gulf of Georgia and Straits of Haro and Juan de Fuca to the Pacific Ocean;
- (7) Dixon Entrance to Mount St. Elias;
- (8) 141st Meridian from Mount St. Elias to the Arctic Ocean.

The boundary between Canada and the United States comes under the jurisdiction and administration of the International Boundary Commission. This Commission consists of two Commissioners, one representing Canada and one the United States. They are guided by five international treaties.

There is no other boundary in the world of such length on which no gun or armament is to be found.

## Alberta's Income Tax

Province Expects To Derive Over Million In Revenue

Even office boys and clerks earning \$15 a week will contribute to the treasury of the Alberta Government through the income tax which is expected to net \$1,374,000 in revenue. Returns on 1931 incomes must be made by May.

Everyone earning \$15 a week who is unmarried will pay a \$3 filing fee plus a 30-cent tax. Married persons with no dependents will pay the \$3 base tax and 60 cents income tax on income of \$30 a week.

Exemptions for single persons are \$750 and for married persons \$1,500.

Only single persons earning \$20 a week or more will be liable under both the Alberta and Dominion Income Taxes, with those earning that amount paying \$11.10 to the province and \$7.20 to the Dominion. Married persons must earn \$50 a week or more to be liable under both taxes, the amount of the taxes on that salary being \$14 to the province and \$4 to the Dominion.

"Your pulse is perfectly regular."  
"Nonsense. You are holding my wrist watch."—Die Muskete, Vienna.

## SHE WORRIED ABOUT HER WEIGHT

"I started taking Kruschen Salts a month ago. I have lost 5 pounds in weight, and I feel as if I have lost 50 lbs. I am full of vigor, whereas before I was listless and worried over little things. But I am thankful to say that, were my troubles doubled, they would not worry me to-day—thanks to Kruschen." Miss V. P.

Here's the recipe that banishes fat—take one-half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning, for "It's the daily dose that takes off the fat."—Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Modify your diet, and take gentle exercise. The stomach, liver, kidneys and bowels are tuned up, and the pure, fresh blood containing these six salts is carried to every part of the body, and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

## WORLD HAPPENINGS BRIEFLY TOLD

France will take part in the Olympiad at Los Angeles.

A resolution favoring shorter working hours for labor has been voted upon favorably by the British Columbia legislature.

Men at The Pas, Man., are seeking rights from Ottawa to fish in the Hudson Bay. They would operate on a commercial basis.

John Fletcher, a notable figure in the early history of telegraph development in British Columbia, died recently at Palo Alto, Cal.

Guglielmo Marconi has developed a completely successful ultra short wave radio telephone capable of receiving and sending.

Saskatchewan's coal output for February of 1933 was 99.1 per cent. advance over the same period a year ago.

A trading loss of £646,606 for the past year, including provision for its liability in the losses of subsidiary companies, was reported by the Hudson's Bay Company.

Rumors prevail at Seward, Alaska, that Jack McCord, a promoter, has discovered platinum bearing sands on Chirikof Island and was planning to start immediate development of a mine.

Hugh S. Gibson, the United States delegate, proposed to the world disarmament conference the abolition of offensive weapons including tanks, heavy mobile guns and gases as the key to the disarmament problem.

When Andrew W. Mellon arrived in London, England, to take up his duties as United States ambassador, he was given an ovation by a considerable crowd at the railway station.

**Fresh Supplies In Demand.**—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

### Completes Winter Work

"The flying box car" of the north country, JR-52, a huge Junkers aeroplane, flown to Winnipeg from Montreal last December, arrived back from Norway House, having completed freighting operations for the winter. She will remain in Winnipeg until after the spring break-up, when she will be fitted with pontoons and sent back to her summer work.

## Bilious For Days At Time Until She Took Vegetable Pills

Gratefully, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed."

Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Headaches, Poor Complexion and Indigestion. 25c. & 75c. red pkgs. everywhere. Ask for Carter's by NAME.

W. N. U. 1938

## ALLIED AND ENEMY FLYERS FRATERNIZE

Allied and enemy flyers and observers who fought in the clouds to the accompaniment of whining struts and Lewis gunfire, gathered recently in the Royal Alexandra Hotel, Winnipeg, to attend a banquet sponsored by the Aviation League of Manitoba. More than a hundred Manitoba wartime pilots and observers from both sides attended the reunion.

In this picture, Karl Neumann, left, who claims membership with the great Baron Richofen's famous "Flying Circus," is seen recounting a war exploit to an interested audience of Manitoban pilots.

This picture shows a portion of the gathering relating wartime exploits as the cocktail tray goes round.

### Tax On Insurance

**Imposition Of One Per Cent. Of Premiums Other Than Life, Marine and Farm Mutual**

Imposition of a tax of one per cent. of net premiums of insurance companies authorized to transact business in any province of Canada, other than life, marine and farm mutual was announced in the budget speech of E. N. Rhodes, Minister of Finance, in the House of Commons.

"The tax upon insurance premiums passed at the last session was not put into effect by proclamation as provided by the statute, owing to difficulties over the jurisdiction of the Dominion and provinces in the matter of insurance," Mr. Rhodes remarked.

"It is now proposed, under the Special War Revenue Act, to impose a tax of 1 per cent. of net premiums of insurance companies authorized to transact business in Canada or in any province of Canada, other than life, marine and farm mutual. This tax was in force from 1915 to 1920. British and foreign companies, not so authorized, but maintaining deposits with the Dominion, will also be assessed 1 per cent. of net premiums received in Canada. Canadian policyholders who insure their property in Canada with companies other than those mentioned above, will be charged a tax of 15 per cent. of the gross premiums payable on such insurance."

### Platinum Will Evaporate

Platinum is caused to evaporate like water by a discovery announced from the California Institute of Technology. This precious vapor, probably the world's highest-priced mist, condenses into unimaginably thin films upon a wide variety of materials. It coats them virtually permanently.

### Ask For Protection Of Livestock Industry

**Dominion Minister Of Agriculture Requested To Call Conference**

A meeting of the Saskatchewan Livestock Board held in Regina passed a resolution requesting the Dominion Minister of Agriculture to call a conference of all livestock interests in Canada before the Imperial Conference in Ottawa in July to draft a policy for the protection of the livestock industry to be presented at the conference.

The meeting also endorsed a similar request from the Western Canada Livestock Union. It was intimated at the meeting that in the case of the Dominion declining these requests the Livestock Union might call an independent meeting and, in case this was done, the Livestock Board requested that the six presidents of the Saskatchewan Associations, horse, cattle, sheep, swine, poultry and ranchers, be invited to attend.

By twisting the handle of a new hairbrush either short or long bristles are extended for use.

One of the newest uses that farmers have found for electricity is to heat hotbeds.

## SUNDAY SCHOOL LESSON

APRIL 24

### ABRAHAM'S GENEROSITY TO LOT

Golden Text: "In honor preferring one another."—Romans 12:10.

Lesson: Genesis 13.

Devotional Reading: Psalm 133.

### Explanations and Comments

**The Problem**, verses 5-7.—The land of Canaan was not fertile enough to support such large flocks and herds as both Abraham and Lot had, especially after there had been a severe famine, Genesis 12:10. Their herdsmen were continually quarreling over the pastures. Not only was there not enough pasturage for them, but they did not have the whole land to themselves—the Canaanite and the Perizzite were there too. Some scholars think that the Perizzites were the original inhabitants who had been conquered by the Canaanites.

**The Peace Measure**, verses 8,9.—Abraham would have no strife between himself and Lot, nor between their herdsmen. The unoccupied country was before them, he told Lot. "He was more intent on peace than on plenty; he preferred fraternal fellowship to selfish increase," and so he bade Lot choose the side he wanted and he himself would take the other.

**The Choice**, verses 10-13.—They had a wide prospect from a hill above Bethel. On the one side of them were the rather barren hills of Judea, from two thousand to four thousand feet high. On the other side was a rich plain ten or twelve miles broad through which the Jordan flowed. Lot's soul had none of the greatness of Abraham's. The well-watered fertile plain on the east, which was "as the garden of the Lord" was his choice. What if the plain was filled with cities whose inhabitants were a proverb of lawless wickedness? He would only pitch his tent "towards Sodom"; but dire results followed.

"Lot was a man of the world, sharp as a needle, having an eye to the main chance. He boasted to himself that he always 'took in the whole situation.' But he had very imperfect sight. He saw 'all the well-watered plain of Jordan,' but he overlooked the city of Sodom, and its exceedingly wicked and sinful peoples. And the thing he overlooked was the biggest thing in the outlook! It was to prove his undoing."—J. H. Jowett.

**The Compensation**, verses 14-18.—"What lay behind Abraham's magnanimity? More than mere kindness to a younger man. More, too, than a mind superior to material values. He had been called of God for a great purpose, and that certainly was something greater than accumulation of wealth. There was an inward fidelity to higher ends which made him treat the question of a better or worse grazing-ground as a mere detail of life. He was content to leave his destiny and the whole question of 'less' or 'more' in other hands."

"This is what was recognized by the gracious revelation made to him when his generosity had been accepted without gratitude. Former promises become more precise and more detailed. 'All the land which thou seest, to thee will I give it and to thy seed for ever.' He is bidden to go 'through the land in the length of it and the breadth of it' in the proud consciousness of possession. If he has sacrificed a part of it to his kinsman, there will be no impoverishment. The renewed and extended promise included more than territory. There was a specific assurance concerning the multitudes of his descendants. They would be abundant so that the land would be fully possessed. 'Thy seed as the dust of the earth'—beyond counting—that is the assurance. God is not to be outdone in generosity by his servant. If Abraham gives generously, God gives tenfold more."

### Rum Running Case

**Nova Scotian Vessel Is Forfeited To United States Government**

The Nova Scotian vessel, "Josephine K," which was seized off Ambrose Light in January, 1931, has been forfeited to the United States Government with the consent of her owners, it was announced in New York.

United States Attorney George Z. Medelle disclosed the action which, he said, was agreed to by counsel for the Liverpool Shipping Company, owners of the boat. The wines and liquors found aboard will be destroyed.

Seizure of the boat caused international complications because her skipper, William P. Cluett, was killed in the coastguard chase. An inquiry, however, resulted in the ruling that the coastguard acted within regulations.

### Better In Canada

"Conditions are better in Canada because Canadians were not as madly excited as Americans by post-war conditions," declares Arthur Stringer, Canadian author. "There is a stability among Canadians that is probably due to the Scotch strain among them," he said.

## Build Up Health With Spring Tonic

The fashion of taking a Spring tonic is based on sound medical grounds. Winter has thinned and devitalized the blood stream so that it isn't carrying enough oxygen. That is the reason for the listless, languid, easily-tired-out condition so prevalent at this season.

What is needed is a tonic—one that will build new blood and restore and purify the blood stream, and thus enable it to carry the energizing oxygen that quickly revitalizes the whole system. Thousands have proven that Dr. Williams' Pink Pills are the ideal tonic for this purpose.

Mrs. A. Merritt of Welland says: "Again last Spring I became ill. I could not do my work; was pale, weak, and tired all the time. I took Dr. Williams' Pink Pills and they soon made me strong and happy again." Try them and experience for yourself the new strength and vigour they will bring you. At your druggist's in the new glass container. 50c a package.

## Community Progress Competitions

**Gratifying Results Attend Movement Sponsored By Canadian National Railways**

The closing entry date for the Canadian National Railways Community Progress Competitions for 1932 has been set for April 30th, by Dr. W. J. Black, Montreal, director of the Department of Colonization and Agriculture for the railway.

In commenting on the results of the two years competitions, which were most gratifying, Dr. Black said an advancement quite substantial in character has been registered in the extent of the public interest being taken by many communities in their local schools, and the education, both primary and higher, of their young people. In agriculture a drive has been instituted for livestock improvement, unprofitable breeding stock has been disposed of, finer soil cultivation has been adopted, good seed has been recognized as more important, the physical conditions of farms, dwellings and buildings generally have been improved, and rural highways have been built or reconditioned.

In Public Health also interest has been stimulated. The prevention and control of infectious diseases has been given more attention, and in some cases municipal doctors have been appointed. Boys' and girls' clubs have been organized where few, if any, previously existed. Agricultural societies, farmers' and women's associations, institutes or clubs have been brought into being or have been advanced. Closer co-operation in community relations has been encouraged, and influences for the general betterment have been promoted, including due consideration for observance of law and order.

In the farm home the handicrafts have been given a premium and the coming generation of workers has been encouraged to preserve and perpetuate the best that has been brought to this country from other lands.

The 1931 prize money totalling \$1,750 for each of the three Western Provinces is being spent on worthwhile projects such as purchase or renting of pure bred stallions and bulls; purchasing seed-cleaning plant; organizing boys' and girls' clubs covering seed growing, poultry, gardens, calf, and swine; beautifying school grounds and purchase of playground equipment and school libraries; establishment of fairgrounds, sewing clubs, and assistance to community halls and other community efforts.

Altogether the results so far have been a fine achievement, demonstrating the possibilities of a united objective toward the great goal of Canadian Citizenship.

"Will you give ten cents to help the Old Ladies' Home?"  
"What! Are they out again?"

## Head Colds Relieved with Vapors

Snuff Vicks up nose or melt in hot water and inhale vapors

**VICKS VAPORUB**  
OVER 17 MILLION JARS USED YEARLY

## CHANGE URGED IN U. S. RADIO BROADCASTING

Ottawa, Ont.—The outstanding educational associations of the United States have passed resolutions urging a drastic change in the system of radio broadcasting in that country, the parliamentary committee on radio broadcasting was told by Dr. J. E. Morgan of Washington, D.C.

Dr. Morgan has been for ten years editor of the Journal of the National Education Association, and represented the national committee on education by radio. The opinion was expressed in his brief that certain radio channels should be assigned to the educational authorities and that they should be owned and operated at the public expense without recourse to commercial advertising.

The federal radio commission of five members, appointed by act of congress in 1927, had proved a "weak organization" so far and had not made full use of its powers, the witness said. Evidence that the United States congress was alive to the unsatisfactory condition of radio in that country was seen in the fact that a commission similar to that studying the Canadian situation was now sitting in the United States by unanimous order of the United States senate.

The radio, congress had decided, must be conducted in the "public interest, necessity and convenience," but whenever commercial interests made a bid for radio channels or hours held by educational organizations, the latter gave up their privileges unless they wished to enter into expensive litigation, Dr. Morgan said.

A powerful "monopolistic" organization in the United States was spending a million dollars a year in propaganda to keep control of radio in the hands of private interests, the witness declared.

## Many Countries Will Exhibit

### Saskatchewan Farmers Urged To Take Interest In Grain Show

Regina, Sask.—J. A. Mooney and E. B. Gass, of this city, addressed a meeting of the Board of Trade at Yorkton in an endeavor to stimulate interest and enthusiasm in the World's Grain Exhibition and Conference to be held in Regina in 1933.

Mr. Mooney told the gathering that more than 30 countries have already signified their intention of entering exhibits at the World's Grain Exhibition and that before long he expected the number would be at least fifty.

"We have one of the best growing grain areas here," Mr. Mooney said, "and it will be a shame if we do not put forth our best efforts to enthrone and encourage the farmers of the district to enter exhibits at the World's Grain Exhibition."

Mr. Gass outlined ways and means of stimulating interest and enthusiasm among the residents of the small towns and villages and the farmers in the Yorkton district and stated that Saskatchewan should enter at least 10,000 exhibits in the World's Grain Exhibition.

## For Peaceful Solution

### Sees Signs Of Co-Operation Between Capital and Labor

Vancouver, B.C.—"I look for the destruction of the capitalistic system through co-operation rather than revolution," declared Dr. S. D. Chown, former general superintendent of the Methodist Church in Canada, addressing the Vancouver Presbytery of the United Church here.

"I rejoice in the signs on every hand of co-operation between owners and operatives, the selling of company stock to employees and other like movements," he added.

### Favors War Weapon Cut

Geneva, Switzerland.—Foreign Minister Dino Grandi of Italy told the World Disarmament Conference Italy welcomed the United States proposal for abolition of tanks, heavy artillery and gas warfare. He added to the plan a proposal to abolish battleships, aeroplane carriers and bombing aeroplanes.

W. N. U. 1938

## Must Protect Bay Route

### Many Misrepresentations Claimed In Regard To Churchill Outlet

Ottawa, Ont.—The Hudson Bay route and the Port of Churchill are the butt of many misrepresentations in both English and Canadian newspapers, B. M. Stitt (Cons., Nelson), told the House of Commons. The member from Nelson charged that if the underwriters had their way they would make it impossible for business to flow over the Hudson Bay route.

Hudson Bay and Straits were now equipped with all necessary aids to navigation and ready for service. Parliament must see that nothing was done to jeopardize their future development.

With regard to the railway into Churchill, he said shippers were ready to use it, but so far no schedule of freight rates had yet been published. He urged that the government direct the attention of the railway's management to this matter.

## Naturalization Papers Needed

### C.N.R. Workers At Winnipeg Required To Produce Citizenship Papers

Winnipeg, Manitoba.—Foreign-born workers in the Canadian National Railways shops at Fort Rouge and Transcona are required to prove their citizenship. Their naturalization papers were inspected by a committee headed by A. E. Moore, Dominion chairman of the Canadian Legion, who said the investigation is the result of a new basis for the proposed lay-off of men by which all employees who cannot prove their Canadian citizenship will be dismissed regardless of seniority.

Mr. Moore, said the basis had been arranged at a conference he had a few days ago with Sir Henry Thornton, president of Canadian National Railways, and R. J. Manion, Minister of Railways.

## Ulster Is Loyal

### Northern Ireland To Remain True To the British Empire

Enniskillen, Northern Ireland.—Viscount Craigavon, Prime Minister of Northern Ireland, told a Unionist meeting that, whatever happened in the controversy between Great Britain and the Irish Free State, nothing would make his government "flinch in upholding the flag which so long has flown over Ulster, the United Kingdom, and the rest of the Empire."

A resolution expressing unshakable loyalty to the King and a determination at all cost to remain within Great Britain and the empire was adopted by the meeting. (The Unionist party is the government party in Ulster.)

## Benefit To Canada

### Estimated \$250,776,000 Brought In By Tourists Last Year

Ottawa, Ont.—Total expenditures of tourists in Canada during 1931 are estimated by the Dominion Bureau of Statistics at \$250,776,000. This is a decrease of \$29,000,000 from the estimated expenditures of the previous year. Entering Canada via ocean ports, tourists spent \$12,018,000; from the United States by motor car, \$188,129,000; and from that country by rail, \$50,629,000.

As against this, Canadians touring abroad spent \$76,452,000 in other countries, a decrease of approximately \$25,000,000 from the figure in 1930.

### Discount On Debts

Toronto, Ont.—To enable farmers to secure equipment much needed for the new season's operations and to aid in liquidation of their present indebtedness, a plan was announced by Massey-Harris Implement Company involving a 10 per cent. discount on all existing obligations to the company and on all new purchases of implements to the extent of payments prior to the end of next November.

### Will Receive Degree

Lennoxville, Que.—Lord Bessborough will visit Bishop's University, Lennoxville, on the occasion of the annual convocation, which takes place on Thursday, June 16. The Governor-General will receive the degree of Doctor of Civil Law, Honoris Causa, which will be conferred by the Chancellor, F. E. Meredith.

## PROMINENT VISITOR

Combining business with pleasure, Gilbert Carmichael, official of Scotland Yard, famous British police organization, is shown as he arrived on these shores. He denied rumors that he is in the United States to investigate the Lindbergh kidnapping and said he will make a study of traffic systems in various American cities.

## Sunday Cinemas In England

### Bill To Legalize Sunday Picture Shows Passes Second Reading

London, Eng.—A bill which would legalize Sunday motion picture shows passed second reading in the House of Commons by a vote of 235 to 217 after prolonged debate.

The decision was left to a free vote of the House, the voting cutting across all party lines. Sabbatarian elements have waged a campaign against the bill and many members received postcards making such prophecies as one that the Lord would strike them dead if they voted in favor of the measure.

Cinemas have been open on Sunday evenings in London and several other cities for many years without legal sanction. They would definitely have to close on Sundays after next October 7, however, unless the bill passed.

## Distribute Flower Seeds

### Canadian Horticultural Society To Donate Seeds To Saskatchewan

Ottawa, Ont.—Flower seeds, for distribution to residents in southern Saskatchewan, where the drought of last year took toll of crops and flowers, will be collected in the east under the direction of the Canadian Horticultural Council. Women's institutes and horticultural societies in eastern Canada will be asked to make donations of seeds and these will be distributed by the Saskatchewan relief commission, in co-operation with the horticultural council.

F. C. Nunnick, chairman of the "Beautify Canada" campaign, announced distribution plans here.

## Use More Foreign Wheat

### Italy To Lighten Restrictions On Future Importations

Rome, Italy.—Restrictions on the use of foreign wheat again were lightened by government decree.

Beginning April 26, millers of northern and central Italy will be allowed to use imported grain for 60 per cent. of their flour, while millers of southern and insular Italy will be permitted to use 85 per cent.

The amount of foreign wheat which could be used in the mixing of flour formerly was 40 per cent. and 60 per cent., respectively, having been gradually raised from 25 per cent. in view of an insufficient production of domestic grain.

Ottawa, Ont.—Growth in Italian purchases of Canadian wheat is looked forward to here as a result of the increase in the proportion of foreign wheat allowed in the making of flour in Italy. The lightening of restrictions follows the trend of other years when, to encourage consumption of domestic wheat, restrictions are imposed early in the crop season and gradually relaxed as the domestic supply diminishes.

## Resigns Seat In Commons

### Member For Royal, N.B., Hands In His Resignation

Ottawa, Ont.—George B. Jones, former Conservative Minister of Labor and former member of the New Brunswick legislature, has resigned his seat in the House of Commons for the constituency of Royal, N.B. The resignation with an accompanying letter by Mr. Jones was read in the House by Mr. Speaker Black.

The action was taken by Mr. Jones on learning that a contravention of the House of Commons act had occurred by reason of Jones Bros., Apohaqui, N.B., having supplied medical goods for needy Indians on orders of the Indian medical director. The firm is not operated by Mr. Jones personally. It is an unincorporated firm, and had it been a corporate one, it is understood, the provision of the act would not apply. The amount of goods supplied, it is understood, was small.

### Miners May Strike

Calgary, Alberta.—Alberta coal miners stand firmly against wage reductions, according to results of the vote held by the Mine Workers' Union of Canada to ascertain the men's stand in the event of pay cuts. Returns so far show a great majority in favor of a general strike if operators attempt salary-reductions.

### Gives Royal Assent

Winnipeg, Man.—Making his first appearance in the Manitoba legislature this session, Lieutenant-Governor J. D. McGregor gave royal assent to six bills. His Honor recently took up his duties after a leave of absence occasioned by a severe illness.

## THE HIKERS' MYSTERY EXPRESS

A unique stunt was put over by the British Railways during the Easter holidays by running "Mystery" specials for an unknown destination. So well were these mystery trains run that not even the train crew knew where they would stop until a moment before their departure. The above picture shows G. W. Holford Knight, K.C., and two other enthusiastic hikers trying to persuade the engineer to let them into the secret.

## SEEK A LOWER RATE ON GRAIN TO MARITIMES

Ottawa, Ont.—Granting of a rate of 19.34 cents per 100 pounds on grain from the head of the lakes to Saint John, N.B., and Halifax, is urged in a memorial which is being sent to the Dominion Government. Conservative members and senators from the maritimes signed the document.

The memorial supports the appeal of the Halifax harbor commissioners and the transportation commission of the maritime boards of trade for a one cent differential for the maritime ports as compared with Quebec port. The appeal was heard before the cabinet shortly before parliament assembled for the session.

By a decision of the board of railway commissioners, the rate from the head of the Great Lakes to Quebec port was fixed at 18.34 cents per 100 pounds. Maritime bodies asked that a one cent differential rate be put into effect under the Transcontinental Act.

The memorial supports the rate fixed by the railway commission to Quebec port. It further requests that the appeal for a 19.34 cent rate to maritime ports be not referred back to the railway commission. An early decision by the government is asked.

## Aid For Farmers

### Advocates Bonusing System To Encourage Mixed Farming

Ottawa, Ont.—Earl Rowe (Cons., Dufferin-Simcoe), debating the Rhodes' budget, pointed to mixed farming as the economic salvation of Canada. It might be necessary to bonus certain products and he suggested two cents for bacon and live beef; one cent for cheese, and three cents a dozen for eggs. This, he said, could be done without a heavy drain on the national exchequer and would revolutionize mixed farming. A plan of this type would encourage exports and stimulate the home market.

The farmers of Canada, proceeded Mr. Rowe, for years have witnessed the coal and iron and steel industries bonused. He believed it was time to take similar action for mixed farming.

The biggest problem in Canada was the rehabilitation of the farmer, said J. L. Brown (Lib., Lisgar). The question now was whether farmers were to be responsible men living on farms, deriving satisfaction out of their work and enjoying reading and other forms of education and entertainment, or whether they were to sink to the position of men engaged solely in grubbing out some kind of living from the soil.

## Disband Hitler Army

### German Government To Put An End To Political Activities

Berlin, Germany.—The German Government ordered Adolf Hitler to disband his army of 400,000 National Socialist shock troops and put an end to the terrorizing activities for which it held him and his legions responsible.

The sudden blow at the strongest single political organization in the nation came in the form of an emergency decree signed by President Paul von Hindenburg. As soon as it was promulgated, police throughout the country proceeded to enforce it by invading the various Nazi headquarters and seizing materials of war and propaganda.

## Business Advisers

### Will Accompany United Kingdom Delegation To Imperial Conference

London, Eng.—The suggestion that business advisers should accompany the United Kingdom's delegation to the Imperial Economic Conference at Ottawa, has been welcomed by most Dominion governments. J. H. Thomas, secretary for Dominion Affairs, announced in the House of Commons recently.

Mr. Thomas added he had invited industrial associations to recommend selected advisers.

Japan has ordered 400,000 military coats in Germany, for delivery next summer.

### PROPOSED CHANGE IN CHURCH BOUNDARIES

Elsewhere in this issue is a notice  
announcing a meeting of the Three  
Hills Presbytery at Aene on April 26.  
This meeting calls for discussion on  
the proposed change of boundaries of  
congregations, the Carbon section be-  
ing included. This meeting will, or  
may, have effect on the Carbon field  
more detrimental than good, should  
the changes be made, especially as it  
may mean the removal of the present  
minister from Carbon. Should the Unit-  
ed Church of Carbon wish to do all  
in their power to have the present mi-  
nister remain amongst us, it may be a  
wise move to send a special delegation  
of the Board of Directors to this meet-  
ing.

Why worry about the provincial in-  
come tax? Your radio license will cost  
you as much as nine-tenths of you will  
have to pay.

### SINCE WHEN (Montreal Witness)

A fine haughty tone runs through  
the writings of the supporters of the  
present government as though it was  
pure impudence to discuss any meas-  
ure propelled by their great chief; es-  
pecially when it is one assuring giving  
him power to spend as he thinks well,  
without further leave from parliament.  
"Why waste the time of the country?"  
Shut up!" "Since when," asks a top-  
lofty one "have minorities run govern-  
ments?" surely that should have ended  
the matter for this and his every other  
decree, which certainly will not be  
questioned by the majority. There is  
no disputing that under the present  
servile Mussolini conditions, talk is  
vain, as an appeal to a parliament de-  
termined to abrogate its proper func-  
tions and that all such talk is liable  
to the accusation of being addressed  
to the public—some of it possibly in  
popular reasoning. But since when  
have oppositions had no appeal to the  
public? The awful rebuke was followed  
up by the leader who sought to close  
down discussion with a closure gag on  
the plea that the Opposition were de-  
liberately obstructing legislation, and  
for purely political purposes. "Since  
when," it may be asked again, "was  
it wrong in oppositions to obstruct  
absolutism on the part of the ruler,  
whether a Mikado or a Pooh Bah?"  
Since when was it not high politics  
to do so? For that matter, is not ev-  
erything done or said in parliament,  
whether by government or the recog-  
nized opposition, or by the occasional  
member, done or said with a con-  
sciousness of the awful unforeseen pre-  
sence of the electorate? Is that not  
the necessary appeal of a suppressed  
minority? In the days before Hansard,  
a great opposition leader, George  
Brown, once said that an opposition  
speaker's only inspiration was in the  
galleries, where he can see the listen-  
ing country. Mr. Mackenzie King ut-  
tered worth while words when he said  
it was "the duty of the Opposition to  
see that the traditional rights of Par-  
liament in matters of expenditure are  
adequately preserved." While the Oppo-  
sition was prepared to vote any sum  
required, it was opposed to extending  
the blank cheque era.

### SEED GRAIN RELIEF

An act to amend the 1931 Temporary  
Seed Grain Act has been approved,

enabling municipalities to pass a by-  
law to provide for the purchase of seed  
for 1932.

It has been agreed that seed grain  
should only be supplied to those who  
cannot obtain the same through their  
own resources. All applications for  
seed to be made to the local council.  
Applications to be investigated by the  
issuing authority, a definite recom-  
mendation made in each case and sub-  
mitted to the Supervisor of Charity  
and Relief, who will notify the local  
authority if the application is approv-  
ed or refused in respect to the gov-  
ernment's participation in any loss that  
may ultimately occur. In the event of  
any uncollectable notes for seed grain  
distributed under these arrangements,  
the loss will be equally borne by the  
municipal district and the province.

Seed grain is being purchased by  
the department of agriculture and may  
be obtained from the Alberta Wheat  
Pool or United Grain Growers eleva-  
tors at points that will be designated  
by the department of Agriculture; at  
a fixed price for wheat of 58 cents per  
bushel; oats 38 cents and barley 51  
cents, subject to change without notice.  
Any approved applicant requiring  
sacked grain must make arrangements  
with the nearest elevator of the two  
companies handling the distribution.

The maximum amount of seed grain  
that may be purchased, as provided in

the act, for different acreage is as fol-  
lows:

Grain not to exceed the value of	
One-quarter Section...	\$ 75.00
One-half Section ....	\$125.00
Three-quarter Section	\$175.00
One section or over...	\$225.00

Anyone obtaining seed grain shall  
give a lien on all crops grown in the  
years 1932-33. The lien shall be a  
charge on any land sown or registered  
in the name of the applicant.

An application for seed from a pur-  
chaser under agreement of sale, a ten-  
ant or occupant, must be accompanied  
by unconditional written consent from  
the registered owner to charge his land.

### CHAPTER XVIII.—Continued

For a moment they faced each other, his eyes, stormy as her own, dark with anger. His hands clenched themselves.

"If I could," he said hoarsely, "I would 'make' it my business."

He wheeled round and left the room without another word. Jean stood staring dazedly at the blank panels of the door which had closed behind him. She wanted to laugh . . . or to

*"I haven't been  
so happy  
for years"*

**"I've just  
thrown out all  
my dust cloths**

—because I've found how to do the work better, easier and quicker.

"I use Appleford Wonder Paper now. You buy it in a neat package that tucks away handily in a table drawer. Twenty-five large sheets for a quarter. When you use it, you simply crumple a sheet into a soft wad and go over whatever needs attention.

"I've never seen anything like Wonder Paper. It really dusts, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides.

"What I used to loathe about dusting was the bother of keeping the dusters clean. I always used odds and ends of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw them into a bag or cupboard. They seemed so unsanitary.

"The beauty of Wonder Paper is that you throw it away when you're through with it.

"I can promise that you'll like Wonder Paper. It gives you time for things very much more attractive than dusting."

### Special Offer

WONDER PAPER is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, send us the coupon below and we'll give you a booklet entitled "Leftovers", containing one hundred recipes, as a bonus for your trouble.

cry. To laugh, because with every sullen word he revealed the thing he was so sedulously intent on keeping from her. To cry, because he had taken her pretended indifference at its face value, and so another film of misunderstanding had risen to thicken the veil between them—the veil which he would not, and she, being a woman, could not, draw aside.

### CHAPTER XIX.

#### The Spider

Probably masculine obtuseness and the feminine faculty for dissimulation are together responsible for more than half the broken hearts with which the highways of life are littered.

The Recalcitrant Parent, the Other Woman—be she never so guileful—or the Other Man, as the case may be, are none of them as potent a menace to the ultimate happy issue of events as the mountain of small misunderstandings which a man and a maid in love are capable of piling up for themselves.

The man is prone to see only that which the woman intends he shall—and no self-respecting feminine thing is going to unveil the mysteries of her heart until she is very definitely assured that that is precisely what the man in the case is aching for her to do.

So she dissimulates with all the skill which Nature and a few odd thousand years or so of tradition have taught her and pretends that the Only Man in the World means rather less to her than her second-best shoe buckles. With the result that he probably goes silently and sadly away, convinced that he hasn't an outside chance, while all the time she is simply quivering to pour out at his feet the whole treasure of her love.

In this respect Blaise and Jean blundered as egregiously as any other love-befogged pair.

Following upon their quarrel over the matter of Jean's attitude towards Geoffrey Burke, Tormarin retreated once again into those fastnesses of aloof reserve which seemed to deny the whole memory of that "magical moment" at Montavan. And Jean, because she was unhappy, flirted outrageously with the origin of the quarrel, finding a certain reckless enjoyment in the flavour of excitement lent to the proceedings by the fact that Burke was in deadly earnest.

Playing with an "unexploded bomb" at least sufficed to take her thoughts off other matters, and enabled her momentarily to forget everything for which forgetting seemed the only possible and sensible prescription.

But you can't forget things by yourself. Solitude is memory's closest friend. So Jean, heedless of consequences, encouraged Burke to help her.

Lady Anne sometimes sighed a little, as she watched the two go off together for a long morning on the river, or down to the tennis-court, accompanied, on occasion, by Claire Latimer and Nick to make up the set. But she held her peace. She was no believer in direct outside interference as a means towards the unravelment of a love tangle, and all that it was possible to do, indirectly, she had attempted when she revealed to Jean the history of Blaise's marriage.

She did, however, make a proposal which would have the effect of breaking through the present trend of affairs and of throwing Blaise and Jean more or less continuously into each other's company. She was worldly wise enough to give its due value to the power of propinquity, and her innocently proffered suggestion that she and her two sons and Jean should all run up to London for a week, before the season closed, was based on the knowledge of how much can be accomplished by the skilful handling of a "partie carree."

The suggestion was variously received. By Blaise, indifferently; by Jean, with her natural desire to know more of the great city she had glimpsed en route augmented by the knowledge that a constant round of sight-seeing and entertainment would be a further aid towards the process of forgetting; by Nick, the sun of whose existence rose and set at Charnwood, with open rebellion.

"Why go to be baked in London, madonna, when we might remain here in the comparative coolth of the country?" he murmured plaintively to his mother.

They were alone at the moment, and Lady Anne regarded him with twinkling eyes.

## It does pay to "ROLL YOUR OWN"

From the standpoint of economy—each 20c. package of Turret Fine Cut contains the makings for at least 50 cigarettes—and Chantecler cigarette papers free.

From the standpoint of real smoking pleasure, there's nothing like rolling your own with the smooth, mellow, fragrant Virginia tobacco that you get in the Turret Fine Cut package.

It does pay to roll your own with Turret Fine Cut.

15¢ and 20¢ packages  
—also in ¼ lb.  
vacuum tins

FREE Chantecler cigarette papers with every package.

**TURRET**  
**FINE CUT**  
Cigarette Tobacco

"Frankly, Nick, because I want Jean for my daughter-in-law. No other reason in the world. Personally, as you know, I simply detest town during the season."

He laughed and kissed her.

"What a Machiavelli in petticoats! I'd never have believed it of you, madonna. S'elp me, I wouldn't!"

"Well, you may. And you've got to back me up, Nick. No philandering with Jean mind! You'll leave her severely alone and content yourself with the company of your aged parent."

"Aged fiddlestick!" he jeered. "If it weren't for that white hair of yours, I'd tote you round as my youngest sister. And I don't believe"—severely—"that it is white, really. I believe your maid powders it for you every morning, just because you were born in sin and know that it's becoming."

So it was settled that the first week of July should witness a general exodus from Staple, and meanwhile the June days slipped away, and Tormarin sedulously occupied himself in adding fresh stones to the wall which he thought fit to interpose between himself and the woman he loved. While Jean grew restless and afraid, and flung herself into every kind of amusement that offered, wearing a little fine under the combined mental and physical strain.

Claire, perceiving the nervous tension at which the girl was living, was wistfully troubled on her friend's behalf, and confided her anxious bewilderment to Nick.

"I think Blaise must be crazy," she declared one day. "I'm perfectly convinced that he's in love with Jean, and yet he appears prepared to stand by while Geoffrey Burke completely monopolises her."

Nick nodded.

"Yes. I own I can't understand the

fellow. He'll wake up one day to find that she's Burke's wife."

"Oh, I hope not!" cried Claire hastily.

They were pacing up and down one of the gravelled alleys that intersected the famous rhododendron shrubbery at Charnwood, and, as she spoke, Claire cast a half-frightened glance in the direction of the house. She knew that Sir Adrian was closeted with his lawyer, and that he was, therefore, not in the least likely to emerge from the obscurity of his study for some time to come. But as long as he was anywhere on the place, she was totally unable to rid herself of the hateful consciousness of his presence.

He reminded her of some horrible and loathsome species of spider, at times remote and motionless in the centre of his web—that web in which, body and soul, she had been inextricably caught—but always liable to wake into sudden activity, and then pounce mercilessly.

"Oh, I hope not!" she repeated, shivering a little. "If she only knew what marriage to the wrong man means! . . . And I'm certain Geoffrey is the wrong man. Why on earth does Blaise behave like this?"—impatiently. "Anyone might think—Jean herself might think—he didn't care! And I'm positive he does."

"If he does, he's a fool. Good Lord!"—moodily kicking a pebble out of his path—"imagine any sane man, with a clear road before him, 'not taking it!' He swung round towards her suddenly. "Claire, if there were only a clear road—for us! If only I could take you away from all this!"—his glance embracing the grey old house, so beautiful and yet so much a prison, which just showed above the tops of the tall-growing rhododendrons.

"Oh, hush! Hush!"

Claire glanced round her affrightedly, as though the very leaves and blossoms had ears to hear and tongue to repeat.

"One never knows"—she whispered the words barely above her breath—"where he is. He might easily be hidden in one of the alleys that run parallel with this."

(To Be Continued.)

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

The snuff habit is being revived among women of Britain.

### Little Helps For This Week

"For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."—2 Timothy 1.7.

Lord and Father, great and holy! Fearing naught we come to Thee; Fearing naught, though weak and lowly,

For Thy love has made us free. By the blue sky bending o'er us, By the green earth's flowery zone, Teach us, Lord, the angel chorus, Thou art love and love alone.

—Frederic W. Farrar.

"Fear may create the enforced obedience of the slave, love only can win the devotion of the child, and that is why God hath not sent to us—who know the truth and whom the truth has made free—the spirit of fear and bondage, but of love, and of power, and of a sound mind. And this love is the sole basis of holiness."—Ibid.

**Relief From Asthma.** Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes! It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

### Television Coming

Guglielmo Marconi, who announced that he had made successful tests of a new shortwave radio telephone, disclosed recently that he is turning his inventive genius to television. "I expect soon," he said in an interview, "to be able to see my family in New York while I speak with them by wireless telephone."

## Cross Baby

"Baby was awfully fretful," writes Mrs. H. A. Flewelling, Ripples, N.B., "until I started giving BABY'S OWN TABLETS. Now he is just wonderfully well." BABY'S OWN TABLETS are the ideal treatment for children's colds, fever, colic and upset stomach. Harmless. See certificate in each 25c package. 237

**INCOME TAX RETURNS**

Income tax returns under the new Provincial Income Tax, are now due and should be filed with the Superintendent of Income Tax, Qu'Appelle Block, Edmonton

BEFORE MAY 31, 1932

Forms for returns may be procured from any Provincial Government Office, such as court houses, land titles office, land offices, municipal secretaries, sheriffs, bailiffs, etc. or from any bank, or direct from the Supt. of Income Tax, Edmonton.

All persons residing, employed, or carrying on business in Alberta, are liable to a tax on income, subject to the exemptions provided for in the Act.

Taxpayers are urged to go at once to the nearest office where forms may be procured, secure the necessary forms and make their returns immediately. Those, who, after deducting the exemptions allowed in the Act, are not liable to a tax, need not file returns.

Full information re exemptions and method of filing returns, is contained on the forms themselves.

The general penalty for failure to file returns by the date specified is 5 per cent of the amount of the tax payable, with a maximum of \$500. Specific penalties are provided for failure to file returns under certain classifications.

**CLASSIFICATION OF FORMS**
